Release 2 Module D: Meta Memory

D0. EXACT TIME NOW:

Although we have finished the interview, we would like to ask you a few additional experimental questions. [They are very similar to questions we have already asked, but researchers are interested in how people respond when the questions are changed just a little.]

D1. Next I'm going to read some statements, and I'd like you to tell me how much you agree or disagree with each statement as it applies to you--strongly agree, agree, disagree, or strongly disagree. Here is the first statement ...

	STRONGLY AGREE (1)	AGREE (2)	DISAGREE (3)	STRONGLY DISAGREE (4)
D1a. I am good at remembering names. (Do you strongly agree, agree, disagree, or strongly disagree?)				
D1b. I can remember things as well as always.				
D1c. I am good at remembering the order that events occurred.				
D1d. After I have read a book I have no difficulty remembering information from it.				
D1e. The older I get the harder it is to remember clearly.				
D1f. Sometimes I have trouble remembering where I have put things.				

2

- D2. Now I have a few questions that are similar to others I've asked before. Do you have a physical, mental, or other health condition that has lasted for 6 or more months, and which limits the kind or amount of work you can do at a job?

1. YES

5. NO →GO TO D3

↓

- D2a. Does it prevent you from working at a job altogether?
